VERTICAL MIXER WAGON

ARES

ARES

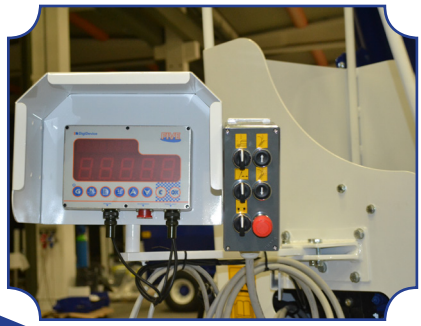
VERTICAL MIXER WAGON

DESCRIPTION

The mixers of the series Ares are equipped with a vertical auger with boron-steel knives and two counter knives. this series is distinguished by its great strength and technology given by a construction of industrial type. from this comes our new chassis composed printed modular elements and gives this machine an high strength and quality.

Auger equipped with knives in boron steel. The perfect proportion with the tank guarantees a perfect mixing of the components of the tractor with less effort.

New chassis composed of printed elements, extremely robust.
This is the only frame in the agricultural world to be certified against corrosion. This system has been patented by RBS UE srl.



Weighing system DG device.
4 weighing cells allow great accuracy in weighing and a lower movement of the weight.
The FIVE unit has 50 recipes and 20 components.

STANDARD EQUIPMENT

RBS
