VERTICAL MIXER WAGON
ARES & ARES2 CL

ARES & ARES2 CL

VERTICAL MIXER WAGONS

DESCRIPTION

THE ARES & ARES2 CL series, equipped with one or two vertical augers, are machines designed to be essential and simple but keeping excellent performance, reliability and the same essential elements, as reductions gears, construction materials, as the others more complete and accessorized series of mixer wagons.
On request, it's possible to install any type of accessory.

Auger equipped with boron steel knives.
The perfect proportion with the tank guarantees an optimal mixing of the components and less effort of the tractor.

Weighing system by DG Devices. The 3 weighing load cells allow great accuracy and lower movement of the weight.
The model FIVE has 50 recipes and 20 components.

STANDARD EQUIPMENT

Front inspection ladder
